

## Titan ProCircuit 15

Commercial Tennis: PE KDK fibrillated tape twin blades combined for premium play commercial tennis courts; high wearing and offers consistent fast pace providing excellent foot stability. Designed for advanced players looking for fast pace.

Made-to-order with integrated line marking in kit format to reduce seaming and is designed to allow play on the fibre tips, not the sand infill. The court surface requires a settling in period during which the sand should compact below the top of the yarn blade and should be maintained at that level for the life of the court.

Roll Width: 3.71m

### Finished Product Details

Application: Tennis  
Pile Height: 15mm  
Colour: Field Olive Green  
Total Product Weight: 1535g/m<sup>2</sup>

### Yarn Properties

Pile Content: 11000 dTex PE KDK fibrillated tape  
Environment: Australian manufactured heavy metal free yarns which may be used anywhere without restriction  
UV Stability: 215gms

### Configuration

Machine Gauge: 5/16 or 3/8  
Stitch Rate: 18 per 100mm  
Yarn Weight: 1645 g/m<sup>2</sup>  
No. of Tufts: 37,815m<sup>2</sup>  
Perforated: Yes

### Primary Backing

Construction: Polypropylene  
Primary Layers: Double

### Secondary Coating

Compound Base: Brown2Earth latex compound with base of styrene-butadiene

### Supply

Available Width: 3.71m  
Standard Roll Length: 24m  
Approx. Shipping Weight: 3.5kg / m<sup>2</sup>  
Line Systems: Tufted as required

### Infill Material

Stabilising Infill: N40 (12kg p/m<sup>2</sup>)

### Product Warranty

8 years  
Manufactured in Australia

## Features

Developed specifically for the hard Australian climate

Compatible Pigments

Heat Stabilised from the Australian sun

Contains no heavy metals or lead in pigments

Titan Turf Warranty

UV Stabilised Yarns
